

# Catering Catalogue

## HOSPITALITY LEAD

Ana-Maria Radulescu

[ana-maria.radulescu@impacthub.net](mailto:ana-maria.radulescu@impacthub.net)

A photograph showing several thin, round slices of cucumber scattered on a white surface. Interspersed among the cucumber slices are small, fresh green herbs, possibly dill or parsley, and a few tiny brown seeds or spices. The background is a soft, out-of-focus white, creating a clean and fresh aesthetic.

## Responsible Catering

Impact Hub Vienna focuses on the topics of climate and sustainability, and we choose our catering partners wisely.

Our mission is to **connect, enable** and **inspire** businesses that innovate with heart, balancing social responsibility with profitability to build a world that works for all.

We support the growth of **socially impactful business ideas** and technologies, and build collaborative partnerships with catering companies that are guided by the same principles as us.

We reduce **food waste** by ordering portion based and we work with partners with the same values. We believe in **quality over quantity**, and we encourage our clients to do the same.

In this catalogue we present a wide variety of catering options provided by us as well as by our catering partners. If you have any other wish, let us know and we will make a **tailor-made proposal** to fit your needs.

We look forward to creating a responsible, sustainable and fair event with you!

## Green Events

As a licensee for Green Events, we offer a regional catering, which fulfills the criteria of the *Österreichisches Umweltzeichen*.

Be it a meeting, a full-day workshop or an evening event with 100 guests, with our options you are well equipped for sustainable catering that does not compromise on quality.

### **Coffee**

We offer organic coffee from *Lavazza*. The coffee machines are fully automatic and offer cow milk as well as oat milk.

### **Vegetarian/vegan products**

Our offer consists only of vegetarian and vegan products. We offer meat only upon request. Gluten-free options are always possible.

### **Reusable equipment**

Almost all drinks come in reusable bottles (excl. wine). We only have reusable dishes and cutlery.

We are always working on improving and developing our offer and are happy to hear your feedback!

## Our Catering Partners

### RITA bringt's

*Rita Bringt's* is Vienna's first delivery service and catering company for exclusively vegetarian bio food. Rita cooks and brings meals by bike. They cook daily with fresh, **100% biological and seasonal ingredients** from the region. This ensures diversity and quality in the meal preparation.

### Bluem.minds

*Bluem.minds* believes in the **"gastronomical guerilla-tactics"**. Their offer is focused on sustainability, that is why they only use biological, natural ingredients. They see the power of plant-based food in all its diversity and prepare it in a way that it is visible. In their view food nourishes on all levels.

### Wrapstars

*Wrapstars* makes decisions that help them offer **real and sincere food**. In this sense, they adopted the "No Bullshit" policy, that treats humans, animals and the environment in a fair way.

### Gaumenfreundinnen

A purely vegetarian and organic catering company, founded by two female entrepreneurs, *Gaumenfreundinnen* spoil your event with sustainable delicacies. They are certified with the **Austrian ecolabel**.

## Our Suppliers selection

### Unverschwendet

*Unverschwendet*, an early member of Impact Hub, repurposes surplus fruits and vegetables that would otherwise go unsold in supermarkets, turning them into delectable jams and chutneys, thereby **preventing waste**.

### sens

As a protein bar, *sens* offers a healthy alternative to the usual bars. Insect protein from their own farm offer the best source of protein as they contain all essential amino acids and valuable nutrients and are also good for the planet: 1 kg insect protein produces 100x less CO2 as 1 kg beef. <https://eatsens.com/pages/our-mission>

### Afreshed

With the 100% organic rescue box, we source fresh organic fruit that does not meet trade standards due to its shape or overproduction, directly from the farm. *Afreshed* and *Impact Hub* are thus actively committed to combating food waste and promoting zero-waste principles by using reusable boxes without packaging.

### Vollpension

The Viennese social business made it their mission to connect seniors with other generations. The stars are always the “Grandmas and Grandpas”. The purpose of *Vollpension* is to fight poverty and loneliness of the elderly.
